CA Compliance Manager for z/OS 2.0
CA RS 1404 - PTF RO66604 Details

Release	Service	Details
2.0	RO66604	<p>RO66604 M.C.S. ENTRIES = ++PTF (RO66604)</p> <p>SUPPORT TO INCLUDE PARENS IN TEST CONDITION VALUE FIELD</p> <p>PROBLEM DESCRIPTION: In CA Compliance Manager UI,customers attempted to include parenthesis in the test condition's value field. They wanted to write a policy with test condition: COMMAND=%UID(0) OR COMMAND=%MODE(The current set up in Compliance Manager UI doesn't support using the parenthesis in the value such as UID(0) or MODE(. SYMPTOMS: Using parenthesis in the value field of test conditions results in the UI freezing up and not allowing the users to perform any other action until they restart their tomcat servers. IMPACT: Users will not be able to use parenthesis in the value in test condition, which may mean getting false positives alerts or reports. CIRCUMVENTION: Users can have multiple test conditions for one test case they want to test. For example: Instead of command=%UID(0), they can have COMMAND=%UID AND COMMAND=%0 PRODUCT(S) AFFECTED: CA COMPLIANCE MANAGER FOR Z/OS Release 2.0 Star Problem(s): CACMGR 329 Copyright (C) 2014 CA.
