

CA Vtape Virtual Tape System 12.6
CA RS 1603 Service List

Release	Service	Description	Type
12.6	R088159	ENH: USE PRIMARY INPUT TAPES TO RECYCLE DUPLEX TAPES	PTF
The CA RS 1603 service count for this release is 1			

CA Vtape Virtual Tape System
CA RS 1603 Service List for CCUUC60

FMID	Service	Description	Type
CCUUC60	RO88159	ENH: USE PRIMARY INPUT TAPES TO RECYCLE DUPLEX TAPES	PTF
The CA RS 1603 service count for this FMID is 1			

CA Vtape Virtual Tape System 12.6
 CA RS 1603 - PTF RO88159 Details

Release	Service	Details
12.6	RO88159	<p>RO88159 M.C.S. ENTRIES = ++PTF (RO88159)</p> <p>ENH: USE PRIMARY INPUT TAPES TO RECYCLE DUPLEX TAPES</p> <p>PROBLEM DESCRIPTION:</p> <p>This is a minor enhancement developed to address the need for customers who want to be able to recycle offsite physical duplex backstore tapes without the need to bring those tapes onsite. Customers want to be able to read the virtual volume data sets of primary volumes to create the new consolidated duplex tapes. This is accomplished by running recycle in a two step process:</p> <p>In STEP 1, RECYCLE is run in SIMULATE mode. It is instructed to analyze offsite duplex volumes. During this analysis it creates a file of the Virtual Volume data sets selected. These are the files that need to be processed in order to consolidate the physical duplex tapes.</p> <p>In STEP2, RECYCLE is run in LIVE or SIMULATE mode as desired. Control cards instruct it to analyze primary tapes as input while only writing duplex tapes as output. The Virtual Volumes selected in STEP1 are applied as a filter against the files on primary tapes. This allows RECYCLE to mount the virtual volume data set of a primary volume as input while then writing that file to the duplex tape.</p> <p>SYMPTOMS: NONE</p> <p>CIRCUMVENTIONS: NONE</p> <p>PRODUCTS AFFECTED: CA VTAPE Release 12.6</p> <p>ENHANCEMENT DESCRIPTION: PRODUCT(S) AFFECTED: CA VTAPE Release 12.6</p> <p>Related Problem: VTAPE 2308</p> <p>Copyright (C) 2016 CA.
