Release	Service	Details
4.4	RO89335	<p>RO89335 M.C.S. ENTRIES = ++PTF (RO89335)</p> <p>ELIPS WRMF COPY ERRORS REDO</p> <p>PROBLEM DESCRIPTION: When using the ELIPS MOVE/COPY utility option for Librarian master files in ISPF, incorrect Programmer, Description, Date Added and Number of Updates can be stored in the target master file when copying one or multiple members of an existing non-wide file to a new wide-record master file. Also, INDEX reporting is incorrect for Number of Updates.</p> <p>SYMPTOMS: The above data items do not contain the correct data.</p> <p>IMPACT: No errors are issued. Inspection of INDEX reports for target and source master files shows the discrepancies. Member data is not affected, only control data.</p> <p>CIRCUMVENTION: Programmer and Description can be manually updated after the COPY by using INFO function in the ELIPS panel. Date Added and Number of Updates, however, are internally maintained only, and cannot be manually updated.</p> <p>PRODUCT(S) AFFECTED: CA-LIBRARIAN TSO <span style="float: right;">Release 4.4</span></p> <p>Related Problem: LIBR 2328</p> <p>Copyright (C) 2016 CA.
