CA XCOM Data Transport for z/OS 12.0
 CA RS 1610 - PTF RO92156 Details

Release	Service	Details
12.0	RO92156	<p>RO92156 M.C.S. ENTRIES = ++PTF (RO92156)</p> <p>HISTORY DISPLAY WITH DATE/TIME AND ALTERNATE KEY INCOMPLETE</p> <p>PROBLEM DESCRIPTION:</p> <p>When retrieving transfer history records using an alternate key such as REQUEST#, USERID, LUNAME, etc along with a specific date and time range, the results may be incomplete. This is the case when using either the ISPF interface or a batch XCOMJOB TYPE=HISTORY.</p> <p>SYMPTOMS:</p> <p>Transfer records may be missing from the retrieved results. There is no way to tell this is the case unless the user knows how many transfers were active during the specified window of time.</p> <p>IMPACT:</p> <p>Transfer results may not be displayed or appear in subsequent reports generated from the retrieved history records. The impact will vary depending on how the records or displays are used.</p> <p>CIRCUMVENTION:</p> <p>Omit the date range from the inquiry if possible, or arrange the parameters to ensure that all of (or possibly more than) the desired transfers are included in the results.</p> <p>PRODUCT(S) AFFECTED:</p> <p>CA XCOM Data Transport for z/OS 12.0</p> <p>Related Problem:</p> <p>XCMVS 1394</p> <p>Copyright (C) 2016 CA.
